United States Public Land Survey Corner Certificate
 of

Land Survey Monuments situated in Section 22, Township 95, Range 13 West of the 5th Principal Meridian in Chickasaw County, Iowa. Previously recorded in does not apply in the county Recorder's Office.

Monument Description and Remarks: This certificate is prepared in accordance with Section 193C of the Code of Iowa. No previous certificate has been filed for this corner location. We found no evidence of the SW Corner other than an existing fence line running north and south. Chickasaw County Engineer's Reference Ties show that a large limestone was found in 1930 at the SW Corner of Section 22. We found the SE Corner and set the S 1/4 Corner. We extended a line from the SE Corner over the S 1/4 Corner to the north-south fence line. At the intersection of those lines we made a visual search of a ±20' diameter area for the limestone. We did not find the limestone as it appears to have been removed when part of the fence was replaced. We found the NW Corner and the W 1/4 Corner we intersected the lines from the NW Corner over the W 1/4 Corner and the SE Corner over the S 1/4 Corner. This intersection came ±3' east of the north-south fence line. Based on this we set a 1/2" diameter steel bar with 1 1/2" aluminum cap #11442 on the extension of the line from the SE Corner over the S 1/4 Corner and in the existing north-south fence line as the SW Corner of Section 22, Township 95 North, Range 13 West.
