**Combined Request for
Pollution Control and Recycling Property Tax Exemption and
Certification of Pollution Control and Recycling Property**

Requests for recycling property need only complete (a), (e), and (f).

- (a) Describe the commercial operation or process in connection with which the property is used. If any such information is considered to be confidential within the meaning of Section 561-2.5(7), of the Department of Natural Resources rules, a request for determination of confidentiality should be attached. If the property is a part of a confinement feeding operation, include a statement of the number and kind of animals confined. If recycling property list type of material recycled and the new raw material manufactured.

- (b) Describe the process which the property removes, treats or disposes of air contaminants, sewage, industrial waste or other waste. Confinement feeding operators and recycling facility managers are not required to complete this item.

- (c) Describe the types and quantities of air contaminants, sewage, industrial waste or other waste which is removed, treated or disposed of by the property. Confinement feeding operators and recycling facility managers are not required to complete this item.

**Combined Request for
Pollution Control and Recycling Property Tax Exemption and
Certification of Pollution Control and Recycling Property**

(d) Describe any by-product or material which, without the control property, would be lost and which is recovered or reprocessed through the use of the facility. Indicate the disposition of each type of recoverable material, including, if applicable, the sale or other disposition of recovered or reprocessed material to industrial waste recovery firms or others and its estimated value. Confinement feeding operators and recycling facility managers are not required to complete this item.

(e) List in detail the property for which certification is requested. Include the manufacturer's make or model number and model year, if appropriate. Attach a copy of schematic, pictures or engineering drawings, plans or specifications. Note with an asterisk property which has a function in addition to removal, treatment or disposal of air contaminants, sewage, industrial waste or other waste. Provide the installed cost of the property described.

(f) Describe the function of any property listed above which has a function in addition to removing, treating or disposing of air contaminants, sewage, industrial waste, other waste or recycling. Also, estimate the percentage of the property usage devoted to nonpollution control or recycling functions.
